EAST GERMANY

25X1

MILITARY/AIRDOBERITZ: 25 May - 5 June 56

25X1

1. During the reporting period the following Russian personnel travelled on the DDR Railways:-

<u>No. of Persons</u>	<u>Route</u>	<u>Remarks</u>
5	KÖNIGSWUSTERHAUSEN - GÜSTRO	
1	WILDPARK - SCHWERIN	
1	DALLGOW - FÜRSTENBERG	
1	WILDPARK - ORANIENBURG	
1	WILDPARK - ORANIENBURG	
4	JÜTERBOG - WÜSTERMARK	
1	WILDPARK - STRALSUND	
2	ORANIENBURG - JÜTERBOG	

2. On the 30 May, 2 flats were seen standing in the ELSGRUND sidings. These carried 11 crates measuring 2.50 x 1.20 x 1.20 metres and 2 crates measuring 1 x .8 x .8 metres.

3. On the 2 June, a convoy of 12 lorries was seen passing through OLYMPISCHES DORF at M.R. 655 223. 2 of the lorries had field kitchens on tow whilst 6 of the others each had a gun of the following description on tow.

- Barrel 1.2 metres long with no muzzle brake or strengthening ring.
- Straight small shield almost square, top about 1.2 metres from ground.
- No visible recoil mechanism but 2 vertical equilibrators in front of shield; single pneumatic tyres about 60 centimetres in diameter; split trail not observed.

The remaining 4 lorries towed 160 mm mortars. In each vehicle was approximately 4 ORs. The convoy was led by a jeep type vehicle.

4. On the same day it was noticed that a new depot has been constructed at M.R. 656 229 within the small triangle formed by the junction of two roads there. The northern boundary of this depot is approximately along the 230 latitudinal coordinate. Inside the perimeter is a large barrack hut approximately 50 x 15 metres. The whole is surrounded by a barbed wire fence running beside a wooden paling fence about 2 metres high. This paling fence has electric flood lights mounted at intervals along the top. There is much fire fighting equipment along the front of the barrack hut but no POL barrels are to be observed. The depot therefore gives the impression of being an ammunition dump. Guards wore plain black sbds.

5. There is an Officers' School in the Olympic Stadium, near to the swimming baths. Recently all officers attending the school were forbidden to partake of alcohol and no alcohol is now sold in the Officers' Mess there.

6. During the reporting period groups of Russian ORs working in pairs have been observed at M.R. 642 235, one of each pair having a light aluminium box on his back. The boxes are 50 centimetres in length, 20 centimetres in depth and 40 centimetres high. These almost definitely contain Walkie Talkie apparatus but during this period under review no aeriels or mouth piece apparatus were observed.
